IF THE SHOE FITS . . .

The shoebill bird of Africa has one of the most appropriate names of any animal on earth!

That giant beak is shaped just like a really big shoe! A shoebill will stand still in the water for hours before suddenly plunging its head into the water to catch fish up to a foot and a half long, as well as any other delicacies unlucky enough to wander into a shoebill's range.

SAFETY FIRST.

Lightning can strike even if it's not raining and the skies around you are sunny! If you can hear thunder, you could be in danger, so always follow the rule, "If thunder roars, stay indoors" – and not under a tree!
